ABOUT ME

I am currently looking for new job opportunities. I have worked with generative AI, implementing solutions and training courses on GitHub Copilot, particularly in Spring environments. Additionally, I have over four years of experience developing in Java. I can work too with Python and JS

My experience has allowed me to build a strong foundation in the most in-demand technologies, with a results-oriented approach and the ability to quickly adapt to new challenges. I am a passionate self-learner, capable of rapidly acquiring new technologies, and I am motivated to continue contributing and growing in software engineering environments, helping drive innovative projects forward
